**Fishing for some few
appreciating the uniqueness**

GOLD FISHING

in sjöhärad

The last paradises will never be for sale

The last paradise spots on earth will never be for sale. We are talking about Nature's greatest secrets. Those places on earth where time stands still, where the scent from wood fired smoke saunas and the movement of the great pike in the reeds merges with the crackling sound from the camp fire.

We will take you to a secret lake offering you exclusive fishing. The cottages are close to the waterside, surrounded by pure nature. Well-chosen food will be prepared and enjoyed in all its simplicity.

A place for passionate fishermen

This is no place for the crowd. Exclusiveness is a rather silly word, but of course, here is the place for some few, appreciating the uniqueness. We receive at the most four passionate epicures at the same time. Gladly fewer.

Our experienced and competent fishing guides are responsible for that everything works for your contentment.
